

Welcare Hospital

Dr. Bharat S Mody

MCh (Ortho) (Liverpool), ODIS (RCSE) (London)

AO Fellow (Harvard Univ.) (USA)

Director & Chief Arthroplasty Surgeon

I welcome you to **Welcare Hospital**. This effort celebrates the evolution of our health care facility & team from being a single surgeon entity to having reached a stage where we are acknowledged nationally as one of the most respected & credible specialized health care facilities for highly specialized surgeries & treatment in selected multispeciality segments like Orthopaedics, Spine Surgery, General Surgery, Neuro Surgery, Urology.

The aim of this brochure is to bring you information about us & share our moments of pride & joy with well wishers like you.

We trust that you will find this compilation useful, as we scale higher mountain peaks & establish new bench marks of healthcare delivery in India.

Welcare Hospital

Dr. Kshitij Mody

Dr. Kshitij Mody is a super-specialist in Knee and Hip Joint Replacement Surgery, Arthroscopy, and Sports Medicine. After completing his education at the esteemed Sancheti Institute in Pune, one of India's leading orthopaedic institutions, he pursued advanced training in Arthroplasty through a fellowship at the globally renowned Hospital for Special Surgery in New York, the world's premier orthopaedic center.

With a deep commitment to improving patient outcomes, he has developed a reputation for delivering state-of-the-art care using the latest advancements in 3D Robotic Technology and Minimally Invasive Techniques.

His proficiency in addressing joint-related conditions and complex sports injuries has earned him a reputation as a sought-after expert, attracting athletes, professionals, and patients from around the world early in his career.

The journey of knowledge acquisition, having a world-class mentor or co-mentor is more than just a source of support through the complexities of surgical inevitable challenges and

A mentor can accelerate the learning of nuanced skills that cannot be gleaned, a rare gift of perspective, drawn from you, a good surgeon into

At Welcare Hospital, with a relentless guiding hand of our mentor, Professor, our own skills but also contribute to the surgical field, ultimately leading to

better patient care and outcomes!*

Dr. Aashay Mody is a Consultant Orthopaedic Surgeon at Welcare Hospital, bringing a fresh perspective to the hospital's renowned orthopaedic care. Having recently completed his higher education from the prestigious KMC, Manipal University, he has joined Welcare with a solid foundation in advanced orthopaedic techniques.

Dr. Aashay's passion lies in providing comprehensive orthopaedic care utilising a meticulous, evidence-based approach that ensures optimal outcomes for his patients. What sets him apart is his methodical, data-driven approach to patient care and research. He believes in combining clinical practice with cutting-edge research, capturing critical data to further innovate and refine treatments.

His commitment to excellence, paired with his passion for continuous learning, makes him a valuable asset to the team at Welcare and a trusted consultant for patients.

Dr. Aashay Mody

Patient Rooms

All patient rooms are equipped with multi-function electric beds for utmost comfort & care, whilst having additional features such as Swiss-made memory foam mattresses to prevent bed sores, high definition television, mini-fridge & internet connectivity for relaxation & work.

Suite Room

Accompanying relatives enjoy generous living space for themselves, with their own toilet, kitchenette, internet connected desk with a gorgeous view.

Single Room/Twin Sharing Room

Occupants have state of the art 10 function electric beds with amenities such as HD TV, Internet connectivity, telephone etc.

General Ward

Welcare Hospital believes in providing the same quality of treatment to the less privileged at economical rates, without compromising on any medical safety.

High Class Infrastructure

Main Building

Welcare Hospital offers its services from a state of the art, highly engineered building which incorporates the most advanced technologies in healthcare delivery that the world has to offer.

Main Reception Lobby

Welcare Hospital has changed the paradigm by creating a sophisticated & warm ambience which matches a five-star hotel.

Waiting Area

It is thoughtfully designed to provide comfort and calmness to patients and their families ensuring a pleasant and stress-free experience during their wait.

Out Patient Department

The centrally air-conditioned building not only offers comfort, but the HVAC system has been designed to filter & reduce bacterial loads in all public areas like the Out Patient Department.

Diagnostic Area

Comfortable waiting spaces & state of the art equipments which offer a high level of accuracy in diagnostic procedures at Welcare Hospital.

Sky Cafeteria

Luxurious spaces created to offer rehabilitating patients & accompanying relatives a relaxed time outside their rooms, but within the hospital campus with an extended outside seating area to enjoy some fresh air.

Operation Theatre

Welcare Hospital has four state-of-the-art operation theatres equipped with extremely advanced technology such as Zero Bacteria Laminar Flow, digital Climate Control panels, bacteria resistant walls & specialized flooring.

The Operation Theatres are clean room facilities which have been created by world leaders of clean room construction for USFDA approved pharmaceutical facilities

X-Ray Room

It is equipped with advanced imaging technology to ensure accurate diagnostics along with patient comfort. With a focus on safety and precision, our trained radiology team provides fast and reliable imaging services to support effective treatment plans.

Bone Mineral Density

Our BMD machine offers precise and reliable assessments for osteoporosis and bone health. Our advanced BMD technology ensures quick, accurate results, enabling early diagnosis and personalized treatment plans to maintain optimal bone strength and prevent fractures.

Advanced Technology

Welcare believes in Surgeons harnessing the power of cutting-edge technology to continuously learn and develop their expertise in the field of Healthcare.

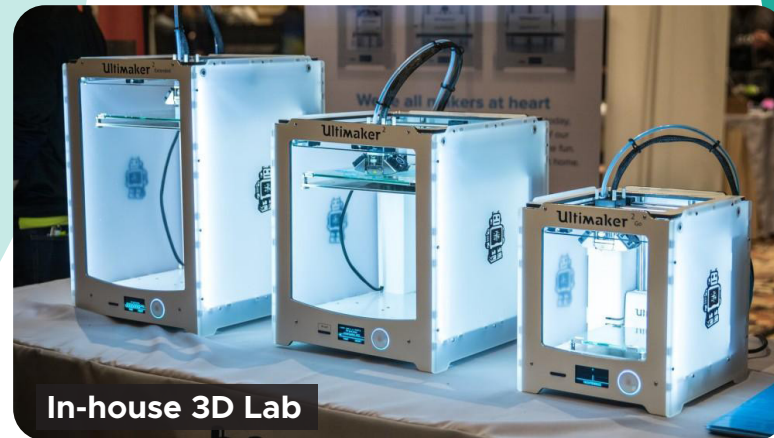

Their commitment to staying updated with the latest innovations ensures they provide the highest standard of care to their patients. With the use of **Robotics** combined with **Virtual Surgery** along with an in-house **3D-Printing Laboratory**, Welcare definitely has an edge over others.

Wards

At Welcare Hospital, our patient wards are designed to provide a comfortable and healing environment. Equipped with modern amenities, each ward ensures patient safety, privacy, and personalized care.

Our dedicated medical team is committed to delivering warmth & care around the clock, ensuring a smooth and compassionate experience during your stay.

Intensive Care Unit

Our ICU is designed to provide a spacious, bright, and calming environment that promotes healing. Unlike traditional ICUs, we offer a patient-centric atmosphere with ample natural light to reduce stress and prevent ICU Syndrome.

Each room is equipped with state-of-the-art monitoring and resuscitative equipment, ensuring the highest level of care.

For patients with infections, our isolated chambers with transparent glass doors prevent cutting them off from the outside world, creating a sense of connection and comfort.
